

WE MAKE IT.

JOHNSON · TILES

Since 1901

SUSTAINABLE.

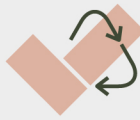

We've been designing and making ceramic tiles since 1901. Proactively setting the environmental standards, in our sector, for more than 20 years. That's why we're still proudly operating from the Potteries' heartland of Stoke-on-Trent, as the UK's only large-scale designer, manufacturer & importer of ceramic & porcelain wall & floor tiles.

Our commitment to responsible manufacturing has seen us develop over 50 eco-friendly ranges, inspiring and enhancing projects across the world. But it's not just what we make, but how we make it. We've dedicated over two decades to finding better ways to operate across every aspect of our business.

We're still standing because we're sustainable.

Single-use plastics removal

Up to 20% recycled content

Recycled packaging materials

Locally sourced raw materials

Energy & water recycling

Saving paper through digital initiatives

WE MADE IT. PLASTIC-FREE IN 2020.

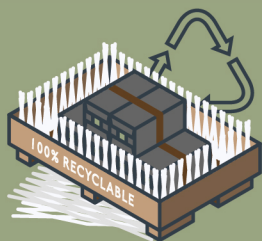

The first tile company to go plastics-free. In just 10 months we removed all shrink-wrap, reducing our use of plastic from 100 tonnes to zero. Now, every pallet of Johnson Tiles' products is wrapped in sustainable, plant-based wrap. Just as strong, just as durable.

Fully recyclable, carbon neutral, bio-based pallet wrapping

Recyclable packaging = reduced site waste costs

Shredding used cardboard to protect future shipments

100% recyclable cardboard boxes, pallets and paper pallet straps
